## National Day

Singapore's National Day is observed every year on the 9th of August. On this day, we celebrate Singapore's independence from Malaysia in the year 1965. It is a day where all Singaporeans, regardless of age, gender, language, race, religion and location come together to celebrate and remind ourselves of what Singapore means to us. It is a nationwide holiday. The main event that takes place is the National Day Parade, which people may obtain tickets to watch live, or on local television.
